1002 Bbl tallow for 1861

My God I thank thee because thou
hast revealed to me this happiness
so little deserved of me, and never
dreamed of. If it be thy will,
I pray thee make this the inspiration
that shall bend my steps, now
in the days of my youth, homeward
and heavenward. Amen.

This Journal was kept is p. 42. by Andrew N. Beattie.

March 29th " p.m. I quit the Cows after having had them 3 winters and two summers & a half I took August 17th " 1853. I became quite tired of them and was quite happy in my releasment. William Reynolds taked them. His health being rather poor he was quite willing to take them and see if his health would not improve I am going into the Garden to work with Nearly & Company. I am perfectly at home in a culinary Garden but not in a seed affair I think I would fill as soon garden as to farm. But next fall will enable me to tell better about that.

March 30th " I and the Boys uncover Cabbage in the forenoon after dinner I & Letty & little Boys clearing of cornstalks and uncovering Beets got through in good time

(Obituary) James Smith departed this life quarter past 2 p.m. being in 77th year.

" 9th A very windy day I and company drilling
for small seeds in our south Garden finished
in good season. I accompanied Catherine
Hayes Phely Cunagan & and other young
woman to the west Brick.
I cannot tell how I shall continue to
love the Garden but thus far I am well
pleased with it; As it regards the great
drudgery connected with the garden some
have talked of I have not found
" 10th I and company working at divers things
drawing & scatter manure and helping
John Gilda plow sod. Monday goes to
Waterville Israel Trotter down from watterville
" 11th Sabbath Rained more or less during the
all our meetings at home

April 12th More or less showery nothing doing in the Garden Boys playing most of the day. I working in the shoe shop mended a pare of Cloth shoes for Nancy & Mr Inman.
in the afternoon went down to the bay-
Shattens with Cephus and 2 men to the Heifers they bought Gents Bales heifer paid
$ 120 for her. they also got a young Bull paid $ 120
The men live in Pensylvania near Pittsburgh
" 13th Generaly turnout of hands tagg the Sheep get done
no good time. there are about 60 Sheep in dispu-
tent of the Lambs. There is nothing going on at-
present, that is calculated produce any excitement
either Spiritualy or temperely
" 14th Somewhat showery most part in the Garden
pease sowed in Center garden Mr Eades quite
poorly pain in the side & chest is his complaint
" 15th inclemency has with the day. Wheat still south
west of the cross roads putting the champion
of England those next to the road are the
paid Champions unadulterated having
them pitched over in order that we might get
pure seed for our own use the other patch
of Champions are more or less mixed not
having been sorted over. We find it necessary
to have Boys follow the Drill and cover
those that are not already covered.
we sowed about 2 Bakets of Peas & 16 rows of Onion.
" 16th " Had quite a shower last evening. All the Garden
hands going up the pease hedge around our
night paster Garden P. M. digg up Peach Trees
and drawed the up to the Peach Orchard
Ministry arrived last out 5 hives east of our
wood House & three by the office Potatoes south side

In the evening Edward & I set out 20 Peach
trees seven north of the house 6 south of
those I put out last evening & seven in the
Office Sen yeard I put out 34 Peach trees
in the last two days besides doing a days
work

" 18th " Rained more or less all day had all our
meetings John Hipin & his sone I see down
Hey Both tended our meeting

" 19th " Quite wet did nothing in the Garden

" 20th " A regular wet day done nothing in the Garden
Sarah Jane Beattie went down to the
Second Order to live with Emily Hampton
I think she was the most crossed I ever saw
any one for having to change homes I hope
she will be able to make a home down there
but I am afraid she ~~will~~ never can—

" 21st " All the Gardeners puting wood in the woodshead
in the afternoon I and my company sowing
Peas that were washed up by the late rain

" 22nd " I and the little Boys planting Sweet Corn
in the forenoon towing after dinner. The rest
of the hands are sticking Peas

" 23rd " I and little Boys drilling and towing rest
of the hands sticking Peas.
William Jennings & George Gilda quit
the Garden Empson Hyson leas Beleavers
Elder John returns from White Water

" 24 I and my company towing all day finished
sticking Peas and planted one peach of Beats
Heavey & Boys Sally Lewis & Adelia moves
to the Second family.

April 25th Sabbath quite chilly & cloudy had all our meetings as usual nothing special on hands It looked rather singular to Sarah Jane in the Eldress hat standing up with Ecclesiastic order

" 26 I and my company having all day shaved out the spring Onions & the Asparagus in the Generation working various places All day at divers things putting Seed Sweeps Harrowing Asparagus Beds & so forth

" 27 I and Company having all day small planting Elder John & the Boys Hoeing planting out an Asparagus bed north of the Blacksmith Became to be quite difficult to find enough hands to fill the various places necessary to keep up all the branches of business north hand the institution being exceeding by week in available power. There are good many Old Convert Ponies and some weakly ones and a great many Children that is them is comely durable bodied men there are but very few of never considered myself a very robust hand but I find I am about among the best and I am not by any means certain but for the last 4 years I have been layed up the least of any one in our family I am certain I have not layed up a day or had to have Dr cents layed out for my Physical inabilities There is not at present a single man that is of lawful age that would be considered a stout sounded man. or at least not more than one or two any way it can be got up.

The time was once when this Church could turn out table bodied working men but not so now

Aprile 28th I am going to work in the company of all the Boys Big and Little were were all employed Setting out Beets in the spring pasture garden finished up Here

" 29th " We finished putting out Beets got done in good time. weather very fine wind south

" 30th I and the Boys planting Beans & setting out Tomatoes having small plants and helping the Eldress sadel some around the north Corn of the dwelling house had a small shower in the evening & signs of more.

May 1st Quite cool wind north I and the Boys planting out Tomatoes in the spring pasture garden and cucumbers north side of the + Bierpasch. Boys played in the afternoon It keeps so cold fine Seeds don't come up

" 2nd " All as usual had all our meeting every body at home and no visitors this is seldomly the case

" 3rd " All hands planting Beans & Corn in spring pasture lot and also set out 20 rows of Tomatoes by the upper Sheephouse among the Cabbage and did not finish in consequence of a small shower about 4 o'clock but we done first rate Bolyard & Elder John is working with my Hearse in the Printing

" 4th " It rained regularly all night we set out Tomatoes in the forehand and played after noon had a heavy rain in the evening

" 5th " I and company dug up the fence around our sod field it having been in a very bad condition It is the next to work in the Garden at anything. It seems quite hard to so arrange business that ends will meat and give satisfaction to all. there are so many different minds & constant demand for hands & help

May. 6th D. 1838. It having rained reggurly all last night the ground is of course expeedingly wet in some pleces that water stands all over the earth wherein it is not falling Boys playing A.M. P.M. I and company sticking Peas in the sodfield wined north west and some rig not clear of Samuel M Locy & aunt I & company to help him plant Corn tomorrow on the west Lot farm

Why should we seak to annoy one and another when ultimately our Heaven & only perminent happiness depends on the connection love & affection we have one for and other

" 7th I and company helping Samuel Locy it was to wet to plant Corn in the forenoon therefore we fixed fence planted corn in the afternoon It was a gloomy day to me. I should much rather work in the Garden than on the farm It may be it is some in consequence of my interest is entirely in the Garden. I shal stay at home tomorrow if all are agreed. (God)

Harison Chaddock and his Boys were also over west helping Samuel. Hanson seeame to be very comfortable.

" 8th " I and company hoeing small plants all day such as young Beets Salal Radishes & so forth we done a splended days work we were working in the seed Garden and in the night pasture finished in good time and went to the pond with the Boys a swiming. We are getting along very finely in our department. all hands are in good health & spirits I superintend the Boys Mowing & planting for him Gilda the Cunning

May 9th Warm and pleasant had all our meetings nothing special on hand church meeting only 3/4 an hour long and little or no speaking or any thing else on hand. I and Edward goes up to the spring pasture & gits a mess of Onion Some sighn of rain.

" 10th Rained all day I and company done nothing worthy of notice

" 11th It rained most of last all day we worked some in the wood sheds splitting & piling wood.

" 12 Quite a pleasant day but to wet to work in the Garden John & Ephram to Dercies after Salt, I and company Got 40 bushel of Corn in the fore noon made some three east of Elder Jo his appartments in afternoon time all as usual

" 13th I and Company planting Corn & Beens in North Garden in the fore noon Planted Cucumbers Punkins Musk melons & Squashes in the Sod field in the after noon Heavy Thunder shower in the night.

" 14 being to wet for any thing in the fore noon, went over west Pond planted 12 akers of Mellons in the after noon finished late in the evening and got caught in a heavy thunder shower as we were coming home had quite a storm after we got home.

" 15th Rained two heavy showers last night it is to wet for any thing in the Garden spent the day easily.

May 16th Rained steadily all last night and continued until about 8o clock AM nothing worthy of notice on hand had all over meeting.

" 17th John Calder and the Big Boys cutting wood for the seed shop they cut 3 cord I and the little Boys working in the Garden. did not dig much being to wet

" 18th All hands working in sod field cultivating Peas & corn I and the Boys set out 2 & 6.0 Peppers.

" 19th " Work in the center & seed Garden hoeing weeding plowing & cultivating we planted 15 rows of Pop Corn west side of the Peas but we have had two days of dry weather It has been raining for the last two weeks more or less all most every and some times quite heavily consequently the ground is very wet.

" 20 Cool cool and pleasant Hand company working in the Garden in the forenoon planting Beans Hoeing Peas in the after noon. I planted 100 hills of Mellons in the spring pasture I have planted in all some 3 hundred hills of mellons in different places. Henry is Boss & let him be so. business gods dull to have a Boss that ~~that~~ is never with the hands and always has the hands to go. not come unless the hands are interested and assumes the position of Boss and go ahead on their own Book. I have got the Garden tended this far by my own ejections But C H Eades has the honor of it he has not done 15 minutes work in the Garden to my Knowledg for the last month. unless it was fussing with the drill.

May 21st 1858. had quite a heavy frost last night
Set some of the Beans and Tomatoes
John Calder is plowing up at the east house
for Beans. The Boys sticking Peas in
the forenoon & helped Tom and he
done nothing having taken rather a
Viranus tack last night and little
disposed for any thing at present
I am constantly liable to this unused
stomach unless I live in consonance
with the laws of health and this is the
cause of all Physiological debility.
All hoeing up in the Spring pasture
" 22nd " I and company hoeing in the big center
Garden done a good days work
Ephraim Horley run off this afternoon
" 23rd " A very splendid day wind south and
blowing heavily had all our meetings
nothing special on hand had all
our meetings.
" 24th " It commenced raining hard about
middle of the forenoon and continued
on all day water high.
I and company planted one acre
of Beans in pat the east house field
" 26 " I and company done nothing all day
It rained most of the forenoon and
& all last night the water was
quite high in some such that the dam
was thought to be in great danger
Time passes quite slowly notwithstanding
these wet days

May 26 Land all our company over at the west lot selling out Cabage between the Mellon rows being very wet in so much that we could not work at home in the Clay

" 27th I and all our hands working down in the wood plowing and hoeing rather wet to work comfortably.

" 28th I Elder Pond and all our company set out 10 or 12 thousand Drumhead cabage in the Rolston field all hands very tired we worked all day steady there came a small rain last night consequently we feel satisfied with our days labour thinking our plants will mostly if not live

" 29th I and the Gardeners set out 8 hundred Cabage in our front Garden for home use & also 5 hundred Peppers. played in the afternoon.

" 30th Warm and windy all things as usual had all our meetings.

" 31st All hands working up in the spring-pasture Garden Hoeing & plowing had quite a heavy shower at noon

June 1st " same as usual haying and plowing finished up at the Spring pasture my health is not as good as usual for some cause but I know not what Ithamar Johnson starts this morning for Michigan wishing to square up with J Crippin on the cattle trade

June 2nd " All hands working in the South garden planting Squashes Cucumbers Watermellons & Citrons & hoeing Corn Vegitable Oisters Radishes Celice Onions and putting in Coriander and late Radishes.

There is one fact that all farmers Gardeners & tillers of the soil should early find out and that simply this All things should be put in sufficiently far apart as to admit of running the Plow between rows and the closest that can be worked conveniently is about 3 feet. Radishes, Onions, Celice Spinage Beets Salad, Sage, Tongue-Grass, Scotch Coral, and ever thing of this discription can be tended easily with the Plow but it is quite a vexatious operation for to have them to work with the Hoe entirely.

Read this carefully & Ponder well.

June 3rd " Having rained last night we are setting out some Cabbage planting squashes Pumpkins and Cucumbers in the Ralston field and plawed & hoed the corn & Beans in the high pasture.

June 4 All hands plawing and hoeing in the Sod field had quite a storm of wind and rain in the Evening.

June 5th "

Being to wet to do much any thing Boys played all the afternoon away.

June 5th 1838. I went down to the sod field to work with the Boys. but found much difficulty in accomplishing my desires I wished to clean out some young onions that were put in with the Wheat drill and not having had any experience with it we put in the seed just as we would Wheat and left every hole open as this made Drills about 9 inches wide and not having had the ground in good order it was impossible to run the Drill steadily & straightly, hence the rows being so very close and crooked it is almost impossible to hoe. There is nothing more unnecessical in Gardening than short narrow rows and therefore best to lend 3 or 4 ft. apart with about as much help as is necessary to lend that much cond. "hoeing over ground" is a slow operation, and exceedingly discouraging. Hence to avoid this put in your rows long and wide and saw thick expecting to cut up one half and then start the Boys and their Horses & Plows and you can accomplish some thing it is a grand mistake that Radishes Lettice Onions Beets parsnep Carrots & the like cannot be Plowed and they do the better they need the ground stirred which cannot be done to any purpose except By the Plow. Cultivators Hoe harrows & the various go devils of late getting up are more for sale than real utility In dry times they may do some good but even then the Plow is better where it can be used some times the cultivator is good to follow the Plow when you cannot plow but one way to level down when plants are to young to bear the furrow.

June 6th Wet and windy nothing worthy of notice had all our meetings set one word spoken except what Elder Brother had to in order to lead the the meeting.

" 7th " Land Boys picking Cherries in the forenoon hoeing corn and shot Brown Cats Chery Birds & Yellow Birds for me for a romantic mind

" 8th " Land all our company working at Hall Lot planting Corn Land the Boys planted 12 akers of Corn for Samuel M. Locy.

" 9th " All our hands planting Beens up the East-house got done in good season. Land company spened our evenings Killing Yellow Birds to prevent them from taking our Saleify seed

" 10th " Land company hoeing in our Gardendens planted a few Beans in the spring pasture lot

" 11th " Done nothing in consequence of the wet It rained 2 inches last night and still continues to rain It is dull times for Farmers & Gardeners.

" 12 " Redy to set to work in the Garden Land company picked Cherries in the forenoon and helped the rest of the Brethren gather Straw Berries. It rained But very little.

" 13th " All as usual had all our meetings the day went quite slowly with me I not being very well

" 14th " Land company working in the garden hoeing and weeding most to-day

June 15th " I and the Boys Sowing in the sod field
" " in the afternoon thrashed out our winter

of turnips this year we are taking them
to the cows by the cart load
Remark I think it is better to leave
the beat coop uncovered for sometime
that is they should be left without any
covering save the leaves which cover them
sufficiently till the near approach of
hard winter weather for when covered
early the decomposition of the leaves
occasioned by the warmth of the season
has a tendency to give too much warmth

"We got out our plows & got ready for plowing for wheat
8 3 teams were plowing to day
"William Jacson & I gathered some of the pile

Remark we cut our oats and bound immediately after cutting and as they were not dead ripe they failed to cure. Especially the last that was cut Therefore I have come to the conclusion that it is not safe to plan unless you can be sure of two or three weeks dry weather
I think the better way would be to watch the opportunity as to weather and ripeness of the oats and should they stand a few after they are ripe they may tangle down and it will not do to cut to green as it will take them longer to dry and be running a greater risk Hence it seems they must have the first consideration and find a time between the greenest stage when they will do to cut and ripest Cut when you can have fair weather a few days sitting with cradles or machine
Aug and not bind till they are mostly dry
then shock or haul in
9th " The teams were plowing to day William Jackson & I gathered stones off the ground and cut the sprouts around the stumps
10 " The ground has got too dry for plowing
" Therefore we changed our work to hauling wood " Franklin is hauling Kitchen wood

A description of the person & character of Jesus Christ as it was found in an ancient Manuscript sent by publius lentulus President of juda, to the senate of rome

There lives at this time in judea a man of singular character whose name is Jesus Christ the Barbarians esteem him a prophet but his Followers adore him as the immediate offspring of the immortal god he is endowed with such Unparalleled virtue as to call back the dead from their graves & to heal every kind of disease with a word or a touch his person is tall & Elegantly shaped his aspect amiable & reverend ~~his~~ his hair flows in those beautifull shades which no united colors can match falling into
